Educational Trip to Parle-G Factory
05th December 2022

G.D. Goenka School, Varanasi provided an exciting opportunity to its students of classes Nur to IX of visiting Parle-G factory as a part of an educational trip.

All the youngsters were buzzing at the idea of going to the place where one of their favourite treats, biscuits are made! Upon arrival, they were shown a video explaining the process of manufacturing biscuits and chocolates, as well as advertisements of some of the company's products. Children were most fascinated with the working of the factory. From a deck overhead, the students were able to observe the assembly line system. They saw the dough being baked in bulk, after which the cut biscuits were ready and packaged mechanically. Towards the end, freshly baked biscuits were served and students received packets of these. The combination of learning while having fun was a great experience for students.

The field trip was an overall success with the students' enthusiastic response.
