from
Principal's Desk

At the very outset, I would like to extend warm greetings to all our dear parents. We are going through an unprecedented global predicament today. Each one of us and the entire world is affected by the pandemic. We understand that massive closures present a daunting challenge for both students and the parents. We have had our challenges and triumphs, but through it all, we continue persevering with rigour with your patience and support extended during this testing time. We expect your cooperation in the days to come as well.

Creativity encompasses original and appropriate behaviors. Our educators have been engaging students in various activities and academic projects. We believe that regularly engaging them in some creative activity will help in improved well-being and coping during the pandemic. This will also build resilience and lessen the impact of current stressors among our students.

In this time of uncertainties we encourage you to join hands with our educators and take active part in our students learning. We will continue to work diligently to meet the diverse need of our students. Our educators will also continue to ensure the emotional wellness of the students in the course of lesson implementations. We know that strong partnership this year more than ever will make a great difference in the students' academic and overall well being. Wishing you all a healthy and safe year ahead.
